

Job Title: Survey Engineer

Company: Nirmon Marine

Job Type: Full-time

About Nirmon:

Nirmon is an independent firm with a dedication to ship design, classification society services, shipyard management, and ship operations. Our team of naval architects and marine engineers has a wealth of experience in the maritime industry and is committed to delivering innovative solutions and services to our clients.

Job Description:

We are looking for a proactive and experienced Onsite Surveyor with a specific focus on asset drawing to join our team in Kakinada, Andhra Pradesh. The ideal candidate should have prior experience in surveying maritime assets and be proficient in creating detailed asset drawings.

Key Responsibilities:

1. **Onsite Surveying:** Conduct comprehensive surveys of maritime assets, such as vessels, offshore structures, or equipment, to assess condition, measurements, and compliance with design specifications.
2. **Asset Drawing:** Create detailed asset drawings and sketches based on survey data, ensuring accuracy and compliance with relevant standards.
3. **Documentation:** Maintain a precise record of all survey data and drawings, organizing and archiving information for future reference.
4. **Compliance:** Ensure that surveyed assets meet regulatory requirements and standards while addressing any non-compliance issues.
5. **Reporting:** Prepare and present survey reports to the relevant teams and clients, highlighting findings and recommendations.
6. **Quality Assurance:** Collaborate with senior engineers and surveyors to maintain the quality and accuracy of asset drawings and survey reports.

Qualifications and Skills:

- Previous experience in onsite surveying, with a focus on maritime assets.
- Proficiency in creating detailed asset drawings.
- Strong attention to detail and precision in data collection and drawing.
- Knowledge of maritime regulations and standards is a plus.
- Strong communication skills and the ability to work independently.
- Willingness to travel to various onsite locations as needed.

How to Apply:

If you have the requisite experience in onsite surveying, particularly with an emphasis on asset drawing in the maritime industry, and you are eager to contribute to our team, please send your resume to hr@nirmondesign.com. We look forward to considering you for this vital role at Nirmon.
